## **ADDITIONAL DOMAINS FOR A SUCCESSFUL COACHING PRACTICE**

### **14. Mastery of ICF Co-Competency and Minimum Skills Requirements for acquiring Professional Standards for ACC Level**

- + Please find the ICF Co-competency in Appendix A
- + And the ICF Minimum Skills Requirement for ACC Credential (ACC Markers) in Appendix B

### **15.Acquiring Global Recognition ICF Associate Certified Coach Credential via Ignite ACC Bundle.**

Requirements of Associate Certified Coach (ACC) Credential and how Ignite Global Facilitates the A to Z process with support and guidance every step of the way.

Both Ignite Group and Individual Mentoring Programs include comprehensive coverage of all requirements for ICF ACC Credential.

#### **15.1. ICF Requirement One: 60+ hours of coaching education**

Through the following stages of the program, you fulfill the 60 + hours of ICF Coach Specific Education and obtain the ICF Approved Coach Specific Training Hours (ACSTH) Certification.

L1S1: Foundation of Professional Coaching Mastery Certification

L1S2: Professional Standard Live Classes

L1S3: Practicum & Peer Review

L1S4: Assessment & Feedback

L1S5: Awarding of ACSTH Certification

#### **15.2. ICF Requirement Two: 100+ hours of coaching experience**

ICF Requires you to demonstrate delivery of 100 hours of coaching experience encompassing at least 75 hours of paid coaching and a maximum of 25 hours of pro bono coaching from the commencing date of your ICF-Accredited Coach Education program. Apart from actual paid coaching, exchange of coaching and barter are also considered paid coaching. At Ignite, we created a community of coaches who are in their credential journey, exchanging coaching and fulfilling part of the 75 hours of coaching requirement via Ignite Credential Accelerator, and you are welcome to join this program on a complimentary basis and accelerate your credential journey.

### 15.3. ICF Requirement Three: 10 hours of Mentor Coaching

ICF requires a minimum of 10 hours of mentoring focusing on your ability to execute ICF co-competency for applying for an ICF Credential. Three hours of individual mentoring are mandatory, and the rest can be group mentoring. We look at your development holistically rather than minimally meeting the requirement for credentialing application; hence our ICF Mentoring program includes 6 months of robust mentoring enabling you to become a competent professional coach and deliver excellence in your coaching.

#### 15.3.1. Ignite Group Mentoring Program

Includes 3 hours of one-on-one mentoring with a highly skillful and qualified ICF Registered Mentor who possesses either PCC or MCC credentials and extensive coaching experience.

Fernando Hettiyadura, MCC, conducts twice a month of two-hour live mentoring circles on pre-assigned dates in a small group setting, and you have access to the program for six months, enabling you to gain up to 24 hours of group mentoring. And attendance to live sessions is not mandatory. You are able to join the sessions based on your convenience as per your professional development necessities. The Group Mentoring Sessions are also available via our very own E-learning platform ([Awaken Mind Guide](#)), and you can access them at your own pace.

This program covers all-inclusive, comprehensive credential requirements and support, and the inclusions are mentioned under 10.3.3.

#### 15.3.2. Ignite Individual Mentoring Program

Includes 10 hours of one-on-one mentoring with a highly skillful and qualified ICF Registered Mentor who possesses either PCC or MCC credentials and extensive coaching experience.

The six months of group mentoring mentioned above (10.3.1.) is also included in this program as a complimentary benefit to maximize your development. This program is suitable for coaches who seek long-term professional development and business success as they establish a coaching practice. You also have the possibility to spread out the 10 mentoring hours over 12 months from the date of registration and utilize the mentoring when you need guidance from an experienced professional.

While ICF Mentoring focuses on the execution of ICF Co-competency, professional coaches essentially require guidance and support in holistic development, well-being, as well as emotional and mental safeguarding due to the complexities of working with the human psyche of various clients. In the Coaching industry, such guidance and support are recognized as Coaching Supervision.

When you require such assistance, you have the flexibility and privilege to request Coaching Supervision in place of your mentoring hours.

This program also covers all-inclusive, comprehensive credential requirements and support, and the inclusions are mentioned under 10.3.3.

### 15.3.3. Comprehensive Credential Requirements and Support.

**ICF Requirement Four:** Successful completion (passing score) of a performance evaluation

ICF Coach Performance Evaluation.

At the ACC Level, a coach must demonstrate a passing score at ICF ACC markers. Ignite as an ICF Levels Accreditation Standard Provider; your coaching recording will be **internally** assessed and liaised with ICF directly. The submission of a Coaching Recording must be between 20 to 60 minutes and submitted as a common Audio file format (MP3, MP4, WAV) along with a verbatim transcript.

A coach intending to obtain ICF Level One Certification directly can be exempted from L1S5. The assessment duration is 3 to 10 business days. If you are applying with previous ICF Accreditation standard ACSTH or the Portfolio path, the ICF performance Evaluation process will take up to 14 to 22 weeks, depending on the season.

**ICF Requirement Five:** Successful completion (passing score) of the ICF Credentialing Exam

Credentialing Exam is the ICF Measurement for Credential Success and is taken directly with ICF. The ICF Credentialing Exam is a tool designed to measure a coach's knowledge of and ability to apply the ICF definition of coaching, the updated ICF Core Competencies, and the ICF Code of Ethics against a predetermined standard.

The ICF Credentialing Exam consisted of 81 situational judgment items. Each exam item contains a realistic scenario describing a coaching situation, followed by four response options. For each scenario, candidates are asked to select the best action and the worst action among the options provided for that scenario. There is only one correct best action and one correct worst action for each coaching scenario. The passing score and all

exam results on the ICF Credentialing Exam are reported as scaled scores. The range of possible scores is 200 to 600, with a passing score of 460.

We created a structurally and experientially similar Mock Version for the ICF Credentialing Exam to support you, which is included in our mentoring package as a complementary for Ignite Graduates. The exam duration is three hours. Mock Exam is available for 30 days for practice.

## APPENDIXES

### 8. Mastery of ICF Co-Competency and Minimum Skills Requirements for acquiring Professional Standard for ACC Level

#### Appendix A:

##### ICF Core Competencies

The ICF Core Competencies were developed to support greater understanding about the skills and approaches used within today's coaching profession as defined by ICF. These competencies and the ICF definition of coaching serve as the foundation of the Credential process, including the ICF Credentialing Exam. ICF defines coaching as partnering with clients in a thought-provoking and creative process that inspires them to maximize their personal and professional potential.

The ICF Core Competencies are organized into four domains based on commonalities and interdependencies between competencies within each domain. There are no domains nor individual competencies that are weighted—they do not represent any kind of hierarchy. Rather, each competency is considered core and critical for any competent coach to demonstrate.

The ICF Core Competencies were originally created in 1998, consisting of 11 Core Competencies. In November 2019, ICF released an updated version of the competencies. The updated Core Competencies were integrated in ICF-Accredited Coach Education Programs curricula beginning in January 2021. As of August 1, 2022, the updated Core Competencies were integrated into the Credentialing Performance Evaluation and written exam requirements.

Credential applications submitted on or after August 2, 2022, at Noon EDT (New York) will be assessed to the ICF Core Competencies found immediately below, not the original ICF Core Competencies. Applicants are required to successfully complete the new ICF Credentialing Exam, and candidates required to submit a performance evaluation will be assessed using updated Performance Evaluation criteria.

### Minimum Skills Requirements by Credential

This section includes information on what the ICF assessors evaluate in relation to each ICF Core Competency when reviewing a recorded coaching session. Below are the updated Minimum Skills Requirements which are based on the updated 8 ICF Core Competencies. These competencies are what assessors will use when reviewing a recorded coaching session for applications submitted on or after August 2, 2022.

**Important Note:** Familiarity with the ICF Code of Ethics and its application is required for all levels of coaching and the standard for demonstrating a strong ethical understanding of coaching is similar for an ICF Credential at any level – Associate Certified Coach (ACC), Professional Certified Coach (PCC) or Master Certified Coach (MCC).

An applicant must demonstrate alignment with the ICF Code of Ethics in the performance evaluation. An applicant who commits a clear violation of the ICF Code of Ethics within a performance evaluation recording would not pass this competency and would be denied a Credential.

An applicant must also remain consistently in the role of coach within the performance evaluation. This includes demonstrating a knowledge of the coaching conversation that is focused on inquiry and exploration, and a focus based on present and future issues. An applicant would not pass this competency if they focus primarily on telling the client what to do or how to do it (consulting mode) or if the conversation is based primarily in the past, particularly the emotional past (therapeutic mode).

If an applicant is not clear on basic foundation exploration and evoking skills that underlie the ICF definition of coaching, that lack of clarity in skill use will be reflected in skill level demonstrated in some of the other competencies listed below. For example, if a coach almost exclusively gives advice or indicates that a particular answer chosen by the coach is what the client should do, trust and safety, presence, active listening, evoking awareness, and facilitating client growth will not be present and a credential at any level would be denied.

#### 1. Demonstrates Ethical Practice

**Definition:** Understands and consistently applies coaching ethics and standards of coaching.

- 1.1. Demonstrates personal integrity and honesty in interactions with clients, sponsors and relevant stakeholders
- 1.2. Is sensitive to clients' identity, environment, experiences, values and beliefs
- 1.3. Uses language appropriate and respectful to clients, sponsors and relevant stakeholders
- 1.4. Abides by the ICF Code of Ethics and upholds the Core Values
- 1.5. Maintains confidentiality with client information per stakeholder agreements and pertinent laws
- 1.6. Maintains the distinctions between coaching, consulting, psychotherapy and other support professions
- 1.7. Refers clients to other support professionals, as appropriate

#### 2. Embodies a Coaching Mindset

- 2.7. Mentally and emotionally prepares for sessions

**Competency 2:** Embodies a Coaching Mindset serves as a foundational competency for coach practitioners, focused primarily on the “being” of the coach. The related behaviors are typically demonstrated across a coach’s practice, more so than in any specific coaching session. This competency area is therefore more difficult to consistently assess within the performance evaluation process. As a result, there are no behavioral or skill statements in this Competency area that are used for assessment purposes. Rather, an applicant’s knowledge of and ability to apply Competency 2: Embodies a Coaching Mindset is more directly evaluated in the ICF Credentialing written exam.
